

Company Name: RoboAI Solutions

Industry: Artificial Intelligence, Robotics

Location: Rhineland-Palatinate, Germany

#### Company Description:

RoboAI Solutions is a startup focused on the intersection of artificial intelligence and robotics. We are currently in the early research and prototyping phase for developing intelligent control systems for industrial robots.

#### Goals:

- Advance AI-based robotic systems for automation
- Collaborate with academic institutions
- Apply for regional and national funding opportunities

#### Looking for:

Grants and subsidies that support AI-based research and robotics innovation in Germany or Europe.
